

Local Insight England Summary Report

Bedford Borough

Bedford Borough Council

11 June 2024

Local Insight

Local Insight provides instant access to the information you need for the neighbourhoods you care about.

We bring together small-area social and demographic data in one easy to use and intuitive platform. You can explore data for any area you are interested in through maps, dashboards and reports.

Find out more at: localinsight.org

OCSI

We combine expertise in research and technology to support organisations working for social good to make evidence-based decisions. We have worked with more than 250 public and community sector organisations from local to international level.

Our research and services are based on unrivalled knowledge and use of place-based social, economic and demographic data.

Find out more at: ocsi.uk

About the indicators

OCSI routinely collect all small-area data published by more than 50 government agencies and other reputable bodies. We identify key indicators relevant to local authorities, grantmakers and charities to include within this report and the Local Insight platform.

We manage and maintain all the data and provide comprehensive metadata so that you can be confident you are using the most up-to-date data.

How we have identified the area of Bedford Borough

Index of Multiple Deprivation (IMD)

The following visualisations draw upon data from the Index of Multiple Deprivation (IMD) to give insight into vulnerable populations in Bedford Borough, East of England, England. The Indices of Deprivation 2019 are a relative measure of deprivation for small areas (Lower-layer Super Output Areas) across England. The overall Index of Multiple Deprivation 2019 combines together indicators under seven different domains of deprivation: Income Deprivation; Employment Deprivation; Education Skills and Training Deprivation; Health Deprivation and Disability; Crime; Barriers to Housing and Services and Living Environment Deprivation. A higher score indicates that an area is experiencing high levels of deprivation.

The table below shows the IMD score and rank (average LSOA Rank, where a lower rank indicates that an area is experiencing high levels of deprivation) for Bedford Borough, East of England and England.

Bedford Borough has an IMD score of 18.93. This means that Bedford Borough has higher levels of deprivation to East of England (17.46) and lower levels of deprivation to England (21.76).

Index of Multiple Deprivation 2019 (IMD) Score (2019)	18.93	17.46	21.76
Index of Multiple Deprivation (IMD) 2019 Rank (2019)	17,510	18,824	16,356

Source: Ministry of Housing Communities and Local Government (MHCLG) 2019

The bar chart below explores this further, showing the proportion of people living in neighbourhoods grouped into deciles according to level of deprivation derived from the IMD. A higher score on the IMD indicates that an area is experiencing greater levels of deprivation. To clarify, all neighbourhoods in England are grouped into ten equal sized groups “deciles”; neighbourhoods in decile 1 fall within the most deprived 10% of neighbourhoods nationally, whilst neighbourhoods in decile 10 fall within the least deprived 10% of neighbourhoods nationally.

Proportion of people in each deprivation decile

Crime and Anti-Social Behaviour Incidents

Indicator	Bedford Borough		East of England		England	
	Count	Rate	Count	Rate	Count	Rate

Source: Police UK (Police recorded crime figures)

The line chart below shows a time series made up of 12 month totals of neighbourhood-level incidents of criminal offences. The figure is a rate per 1,000 residents. The first data point covers Sep-2018 to Aug-2019 and the final data point covers Mar-2023 to Feb-2024.

The overall crime rate in Bedford Borough has increased from 113.3 per 1,000 people between Sep-2018 to Aug-2019 to 116.5 per 1,000 people between Mar-2023 to Feb-2024.

Please note there can be missing data in Police.uk crime counts for certain areas. This is often due to issues with IT system changes at various police forces such as Devon and Cornwall, and Greater Manchester currently, which affects their reporting of figures to Police UK. Please see the [Police UK change log](#) for details of current known issues.

Employment

The following data is a summary of key indicators related to employment.

The table below shows figures for the number of people that hold either full or part-time roles alongside the figures for those working in either the public or private sectors.

A higher proportion of people in Bedford Borough work in the private sector (81.91%) than the public sector (18.09%). People are less likely to be part-time employed in Bedford Borough (30.00%) than in East of England (31.54%) and equally likely than in England (30.82%).

Jobs by type			
Indicator	Bedford Borough	East of England	England
Full-time employees (2022)	70.00%	68.46%	69.18%
Part-time employees (2022)	30.00%	31.54%	30.82%
Public sector employees (2022)	18.09%	16.45%	16.84%
Private sector employees (2022)	81.91%	83.55%	83.16%

Source: Business Register and Employment Survey (BRES)

The jobs density (calculated as the number of jobs per 100 working-age people) in Bedford Borough was 69.67% in 2022. This is lower than the average across East of England (74.45%) and lower than the average across England (77.86%).

Jobs density

Source: Business Register and Employment Survey (BRES)

Communities and Environment

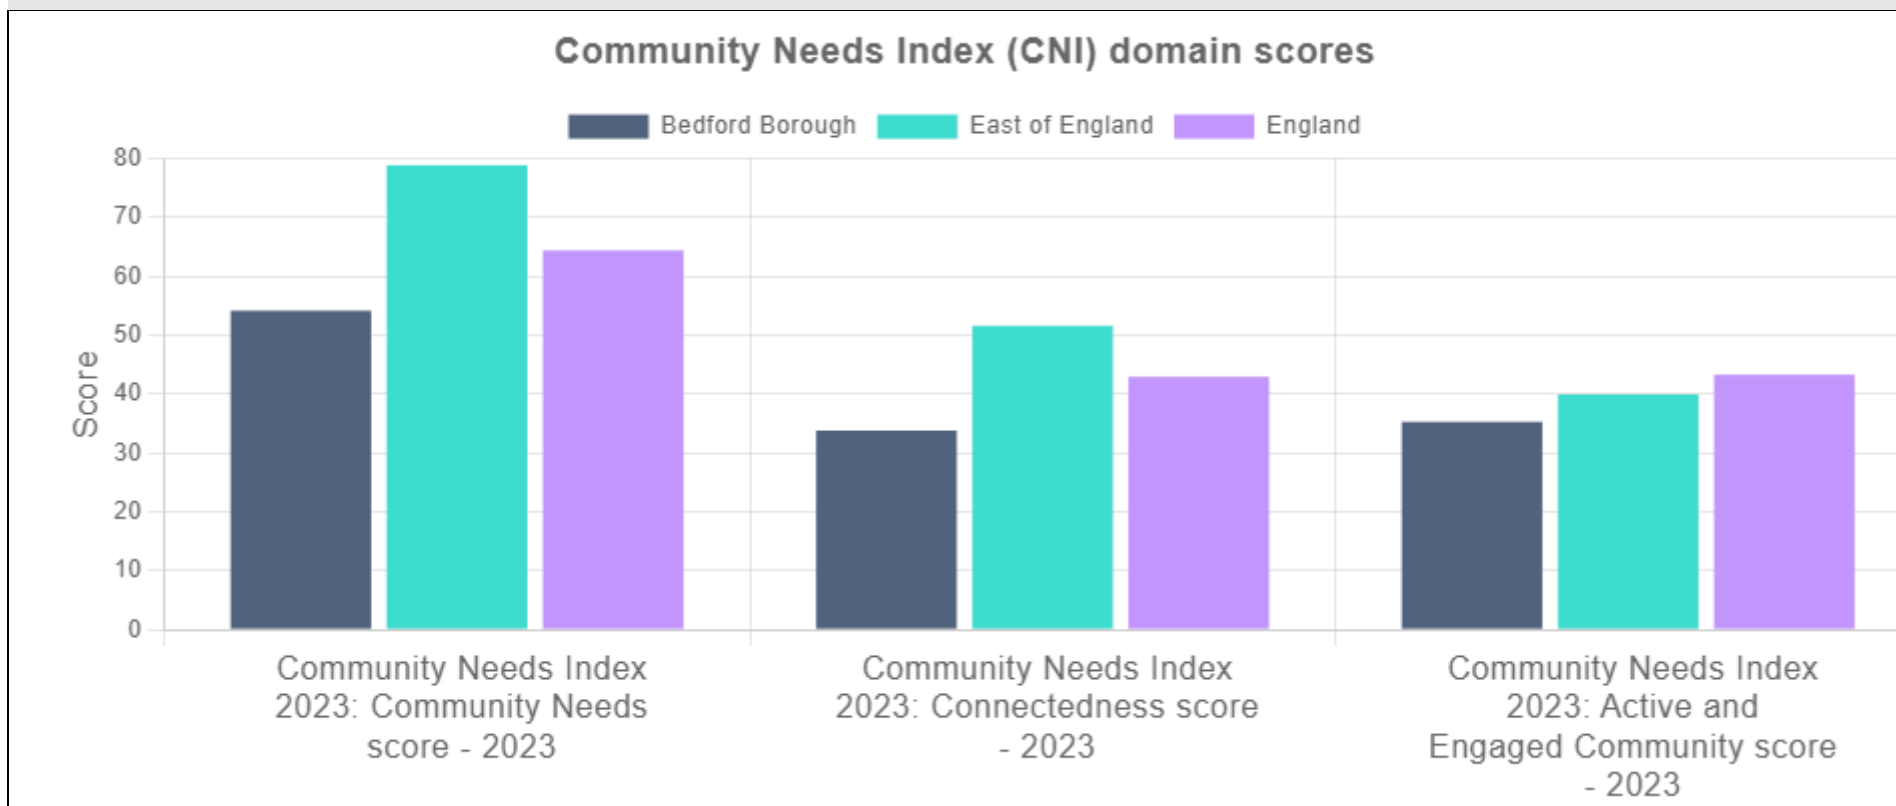

The following data is a summary of key indicators related to the community and environment.

The first chart below shows the Community Needs Index score. The Community Needs Index was developed to identify areas experiencing poor community and civic infrastructure, relative isolation and low levels of participation in community life. A higher score on this measure indicates that an area has higher levels of community need.

Bedford Borough has lower levels of overall need on the Community Needs Index (an overall CNI score of 44.45) than East of England (71.74) and lower levels of need than England (65.55).

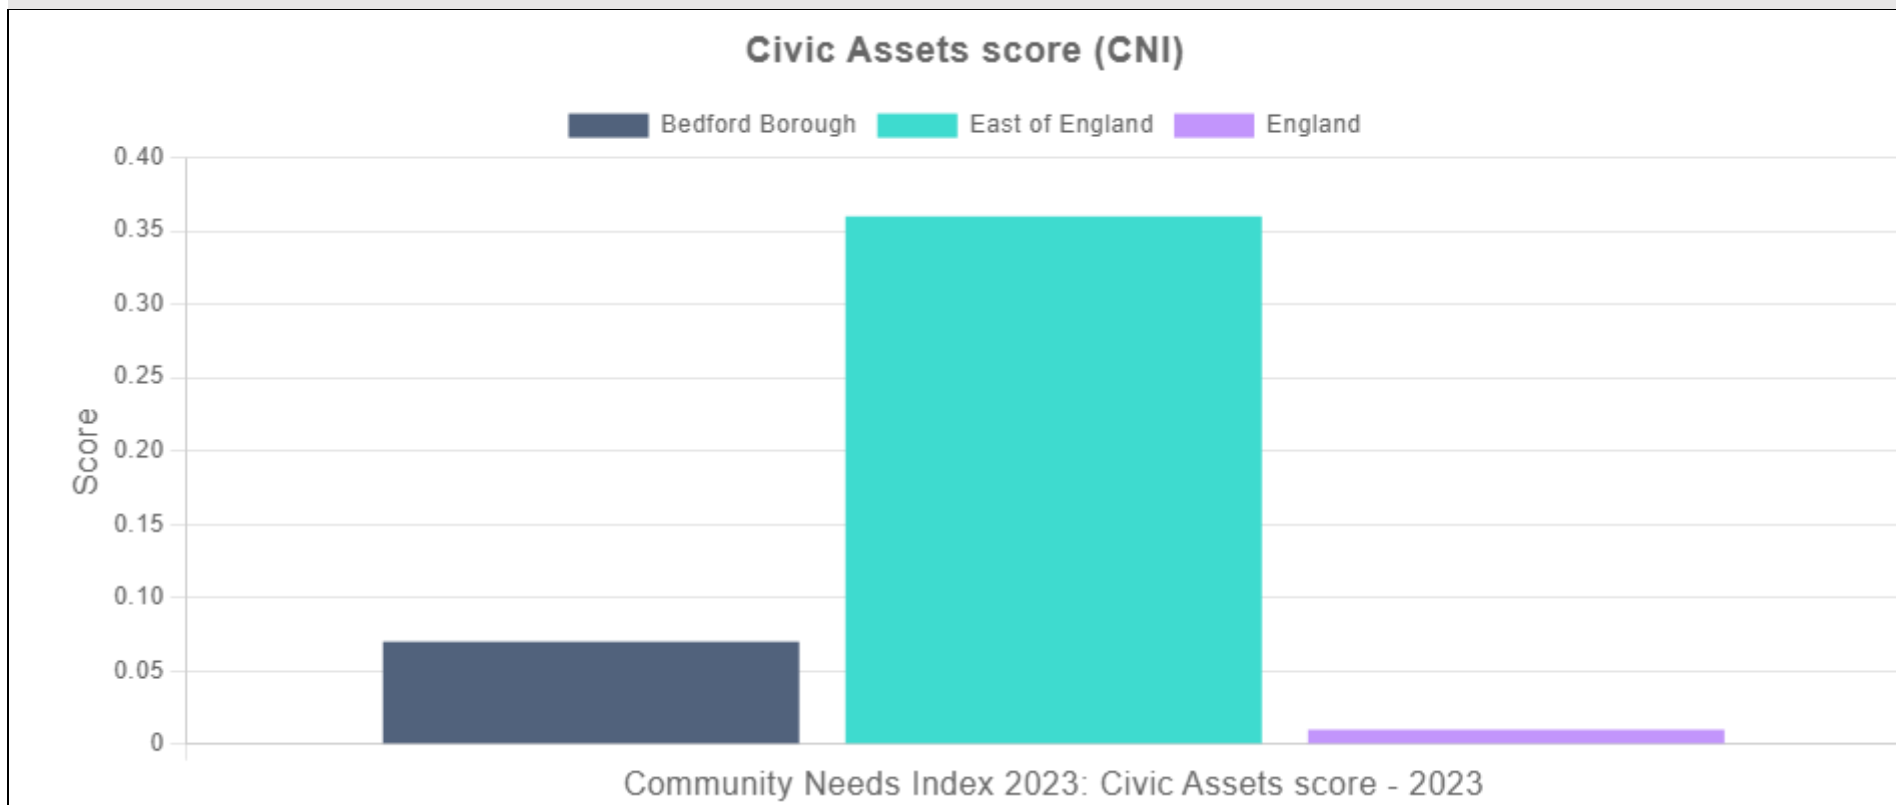

Please note that the Civic assets score is displayed in a second, separate, bar chart just below as the scores for this domain are often much lower than the other domains and therefore the indicator is best shown using its own y-axis.

CNI domain scores

The table below shows the Indices of Deprivation Air Quality Measures. For each pollutant the atmospheric concentration was compared to a national standard value, with the concentrations in each Lower-layer Super Output Area divided by the appropriate national standard, before summing to produce a single indicator. A higher score indicates that an area is experiencing relatively higher levels of deprivation.

Based on the IoD 2019 Air quality indicator - Bedford Borough has higher levels of air pollution (0.907 IoD score) than East of England (0.875 IoD score) and lower levels of air pollution than England (0.957 IoD score).

Indices of Deprivation Air Quality Measures			
Indicator	Bedford Borough	East of England	England
IoD 2019 Air quality indicator (2016)	0.907	0.875	0.957
IoD 2019 Benzene (component of air quality indicator) (2016)	0.087	0.080	0.098

Access and Transport

The following data is a summary of the main access and transport related indicators.

The table below shows the proportion of households according to their ownership of a car or van. This is based on responses to the car ownership question in the 2021 Census which asks information on the number of cars or vans owned, or are available for use, by one or more members of a household. This includes company cars and vans available for private use and is based on details for private households only. Cars or vans used by residents of communal establishments are not counted.

In Bedford Borough, 18.19% of households have no access to a car or van. This is greater than the proportion without access to a car or van in East of England (16.82%) and less than the proportion without access to a car or van in England (23.54%).

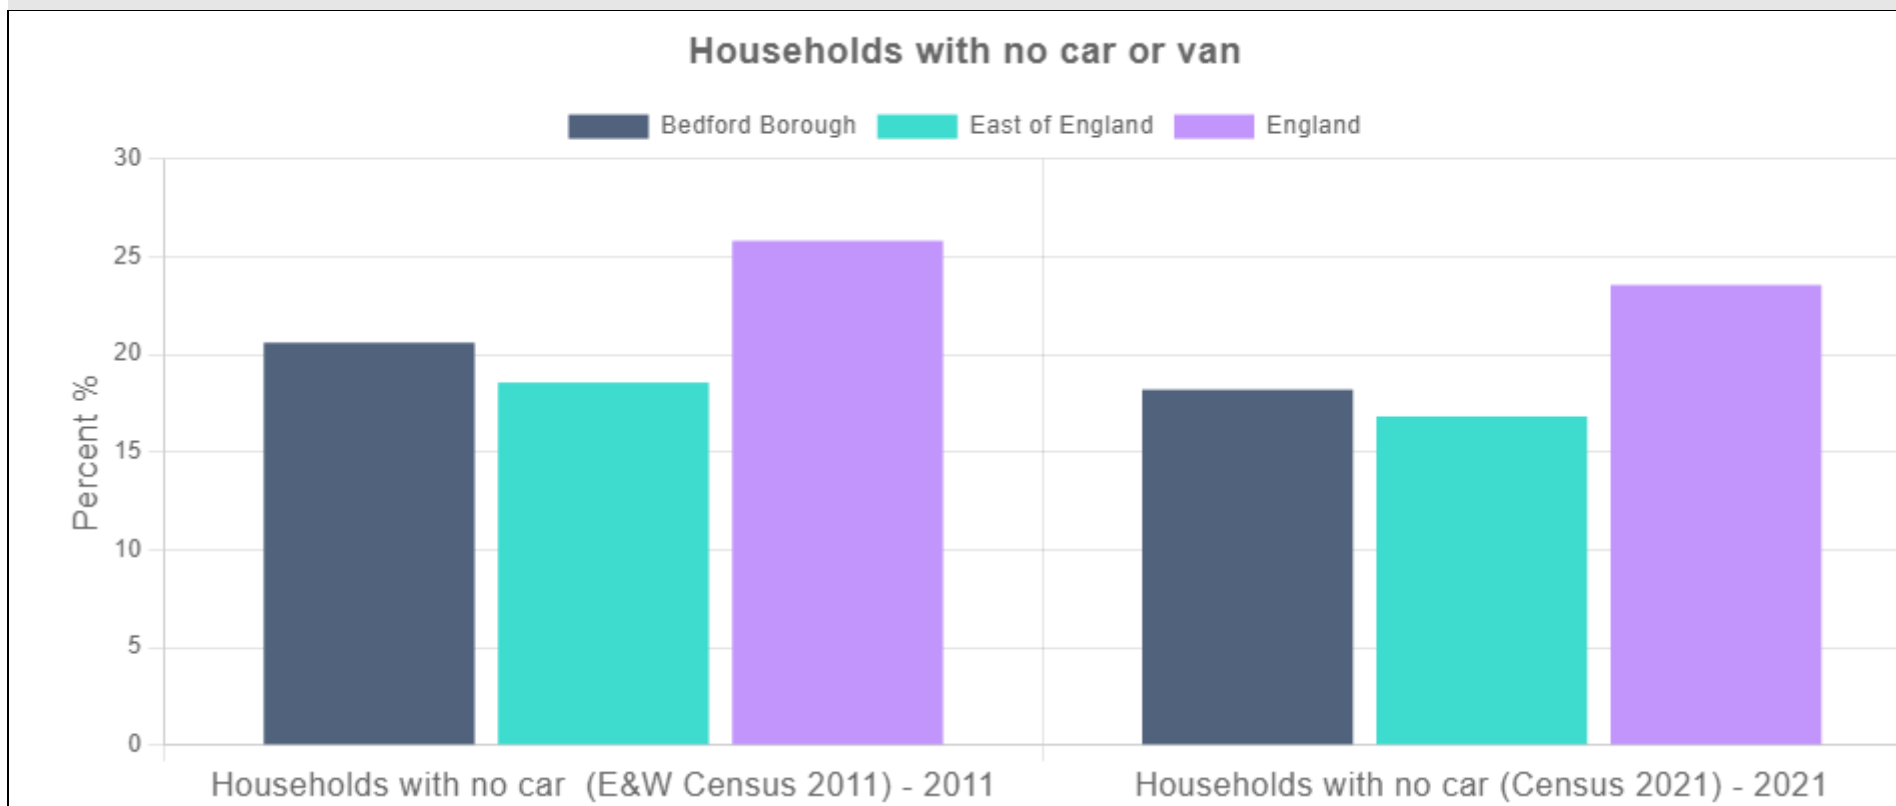

Car or van ownership			
Indicator	Bedford Borough	East of England	England
Households with no car (Census 2021) (2021)	18.19%	16.82%	23.54%
1 car or van in household (Census 2021) (2021)	40.24%	41.56%	41.28%
2 cars or vans in household (Census 2021) (2021)	30.52%	30.04%	26.06%
Households with 3+ cars (Census 2021) (2021)	11.06%	11.58%	9.12%

Source: UK Census

The bar chart below shows the proportion of households with no car or van in the 2021 Census alongside the proportions from previous Censuses to identify changes over time.

In 2011, 20.59% of households in Bedford Borough had no access to a car or van. This is greater than the proportion without access to a car or van in 2021 (18.19%).
