Local Insight

Local Insight provides instant access to the information you need for the neighbourhoods you care about.

We bring together small-area social and demographic data in one easy to use and intuitive platform. You can explore data for any area you are interested in through maps, dashboards and reports.

Find out more at: localinsight.org

OCSI

We combine expertise in research and technology to support organisations working for social good to make evidence-based decisions. We have worked with more than 250 public and community sector organisations from local to international level.

Our research and services are based on unrivalled knowledge and use of place-based social, economic and demographic data.

Find out more at: ocsi.uk

About the indicators

OCSI routinely collect all small-area data published by more than 50 government agencies and other reputable bodies. We identify key indicators relevant to local authorities, grantmakers and charities to include within this report and the Local Insight platform.

We manage and maintain all the data and provide comprehensive metadata so that you can be confident you are using the most up-to-date data.

How we have identified the area of East Surrey UA

This report is based on the “East Surrey UA” area, created by Surrey County Council. The map image of the area is shown at the beginning of this report. The map imagery is provided by Google, using boundary definitions published by the Office for National Statistics (ONS). Statistical and geographic data are sourced from the ONS and are used under the terms of the Open Government Licence v3.0. Contains Ordnance Survey data © Crown copyright and database right [2025].

We use sophisticated aggregation and apportioning methods to calculate the data values used in the charts and tables in this report.

Alongside data for the “East Surrey UA” area, we also display data for the selected comparator areas: Surrey and South East.

Population

Population Composition

The table below provides insight into the population composition in East Surrey UA. These population figures provide detail of the structure of the population by broad age bands and sex. This data is taken from the Office for National Statistics (ONS) 2022 Mid-Year Population Estimates.

There are 552,058 people in East Surrey UA. This is smaller than the population of Surrey (1,217,048) and smaller than the population of South East (9,387,286).

Population Composition						
Indicator	East Surrey UA		Surrey		South East	
	Count	Rate	Count	Rate	Count	Rate
Total	552,058	-	1,217,048	-	9,387,286	-
Male	268,052	48.56%	593,747	48.79%	4,593,507	48.93%
Female	284,006	51.44%	623,301	51.21%	4,793,779	51.07%
0 to 15	110,509	20.02%	233,882	19.22%	1,745,770	18.60%

Index of Multiple Deprivation (IMD)

The following visualisations draw upon data from the Index of Multiple Deprivation (IMD) to give insight into vulnerable populations in East Surrey UA, Surrey, South East. The Indices of Deprivation 2019 are a relative measure of deprivation for small areas (Lower-layer Super Output Areas) across England. The overall Index of Multiple Deprivation 2019 combines together indicators under seven different domains of deprivation: Income Deprivation; Employment Deprivation; Education Skills and Training Deprivation; Health Deprivation and Disability; Crime; Barriers to Housing and Services and Living Environment Deprivation. A higher score indicates that an area is experiencing high levels of deprivation.

The boxes below show the IMD score and rank (average LSOA Rank, where a lower rank indicates that an area is experiencing high levels of deprivation) for East Surrey UA, Surrey and South East.

Oxford Consultants for Social Inclusion Ltd. All rights reserved.

Copyright © 2025. Not to be used for commercial purposes.

East Surrey UA has an IMD score of 9.88. This means that East Surrey UA has similar levels of deprivation to Surrey (10.08) and lower levels of deprivation to South East (15.55).

IMD Score	IMD Rank
9.88	25,151
(Surrey = 10.08, South East = 15.55)	(Surrey = 24,931, South East = 20,519)

Source: Ministry of Housing Communities and Local Government (MHCLG; 2019)

The bar chart below explores this further, showing the proportion of people living in neighbourhoods grouped into deciles according to level of deprivation derived from the IMD. A higher score on the IMD indicates that an area is experiencing greater levels of deprivation. To clarify, all neighbourhoods in England are grouped into ten equal sized groups “deciles”; neighbourhoods in decile 1 fall within the most deprived 10% of neighbourhoods nationally, whilst neighbourhoods in decile 10 fall within the least deprived 10% of neighbourhoods nationally.

Deprivation Deciles

Unemployment

The following data shows the key unemployment indicators.

The table below shows the total number and proportion of people receiving Universal Credit (UC) or Job Seekers Allowance (JSA) by age and sex.

The proportion of working age people receiving benefits for unemployment in East Surrey UA was 2.23% in Sep-2025. This is similar to the average across Surrey (2.35%) and lower than the average across South East (3.16%).

Unemployment Benefit Claimants						
Indicator	East Surrey UA		Surrey		South East	
	Count	Rate	Count	Rate	Count	Rate
Unemployment benefit claimants (Jobseekers Allowance and out of work Universal Credit claimants)	7,445	2.23%	17,660	2.35%	183,165	3.16%
Youth unemployment (18-24 receiving JSA or Universal Credit)	1,205	3.67%	2,915	3.22%	32,855	4.58%

Housing

Average House Prices

The figures below show the mean house prices by accommodation type across East Surrey UA and comparator areas for four key dwelling types (detached houses, semi-detached houses, terraced houses and flats). Data on house prices is from the [Land Registry open data, price-paid dataset](#). The Land Registry collect data on all housing transactions, published by individual property and date with the average house-price for all property types calculated on a rolling 12 months total.

The average property price for all dwelling types in East Surrey UA was £638,337 between Sep-2024 to Aug-2025. This is higher than within Surrey (£590,921) and higher than the average within South East (£440,050).

Note: Some small areas may not have had a transaction recorded within the twelve month period leading to gaps in the figures below.

Average House Price

£638,337

(Surrey = £590,921, South East = £440,050)

Housing Tenure

Oxford Consultants for Social Inclusion Ltd. All rights reserved.

Copyright © 2025. Not to be used for commercial purposes.

The chart below provides the proportion of the housing in the area by tenure type. The tenure of a household is derived from the response to the 2021 Census question asking whether the household owns or rents its accommodation and, if rented, from the response to the question asking who is the landlord.

Crime

The following data provides insight into the recorded crime rates in an area. The data is created using the rolling 12 month total of neighbourhood-level incidents for various types of offence as a rate per 1,000 residents. The incidents were located to the point at which they occurred and allocated to the appropriate lower super output area (LSOA). This is based on data for individual crime incidents published via the [Police UK open data portal](#) which has been linked by Local Insight to selected neighbourhoods.

Please note there can be missing data in Police.uk crime counts for certain areas. This is often due to issues with IT system changes at various police forces such as Devon and Cornwall, and Greater Manchester currently, which affects their reporting of figures to Police UK. Please see [Police UK's change log](#) for details of current known issues.

Crime and Anti-Social Behaviour Summary

The table below shows counts and rates for the main crime types and anti-social behaviour incidents between Sep-2024 to Aug-2025.

There were 37,591 total crime offences in East Surrey UA between Sep-2024 to Aug-2025, with the overall crime rate being 68.1 per 1,000 population. This is lower than the average across Surrey (71.8) and lower than the average across South East (82.7).

Crime and Anti-Social Behaviour Summary

Indicator	East Surrey UA		Surrey		South East	
	Count	Rate	Count	Rate	Count	Rate
Total Crime	37,591	68.1	87,421	71.8	776,362	82.7

Health

Disability Benefits

The table below shows a series of indicators related to disability benefits providing the total numbers of claims and proportions within each area that are accessing the support systems available. It includes the following benefits;

- Personal Independence Payment (PIP) can help with extra living costs if you have both: a long-term physical or mental health condition or disability and difficulty doing certain everyday tasks or getting around because of your condition.
- Disability Living Allowance (DLA) is payable to children and adults who become disabled before the age of 65. It is being replaced by other benefits (mainly PIP).
- Attendance Allowance helps with extra costs if you are over 65 and have a disability severe enough that you need someone to help look after you.
- Universal Credit (UC) disabled child entitlement is an increased award for the child element of UC where a child is entitled to a rate of DLA or PIP.
- Universal Credit (UC) limited capability to work entitlement is for when a household member has limited capacity to work due to poor mental or physical health conditions.
-

5.48% of the working-age population in East Surrey UA are receiving Personal Independence Payments (PIP). This is similar to the proportion in Surrey (5.39%) and lower than the proportion in South East (7.58%).

Long-Term Physical/Mental Health Conditions

The boxes below show the number and proportion of people disabled under the Equality Act with different limitations on day-to-day activity and also for those who have a long term physical or mental health condition but are not limited day to day.

Oxford Consultants for Social Inclusion Ltd. All rights reserved.

Copyright © 2025. Not to be used for commercial purposes.

Figures are taken from responses to the 2021 Census and are based on a self assessment of whether or not a person has a limiting long-term illness, health problem or disability which limits their daily activities or the work they can do, including problems that are due to old age.

In East Surrey UA, the proportion of people disabled under the Equality Act with their day-to-day activities limited a lot is 5.15%. This is similar to the proportion in Surrey (5.14%) and lower than the proportion in South East (6.26%).

<p>Day-to-Day Activities Limited a Lot</p> <p>28,089</p>	<p>Day-to-Day Activities Limited a Little</p> <p>46,210</p>	<p>Physical or Mental Health Condition but Day-to-Day Activities Are Not Limited</p> <p>40,562</p>
<p>5.15% (Surrey = 5.14%, South East = 6.26%)</p>	<p>8.47% (Surrey = 8.67%, South East = 9.87%)</p>	<p>7.43% (Surrey = 7.45%, South East = 7.53%)</p>

Employment

Full-Time and Part-Time Jobs

The chart below shows the number (rounded to the nearest 1,000) and proportion of all employee jobs that are full-time and part-time. Data is taken from the 2023 Business Register and Employment Survey (BRES) of approximately 80,000 businesses and weighted to represent all sectors of the UK economy.

There are approximately 162,000 full-time jobs and 80,000 part-time jobs in East Surrey UA. The proportion of full-time jobs in East Surrey UA (66.94%) is similar to the proportion in Surrey (67.37%) and similar to the proportion in South East (67.86%).

Full-Time and Part-Time Jobs

Source: Business Register and Employment Survey (BRES)

Jobs Density

The chart below shows a time series of job density between 2009 and 2023 across East Surrey UA, Surrey and South East. Jobs density reflects the number of jobs located in the local area as a percentage of the working age population in that area. Data is taken

Oxford Consultants for Social Inclusion Ltd. All rights reserved.

Copyright © 2025. Not to be used for commercial purposes.

from the Business Register and Employment Survey (BRES) of approximately 80,000 businesses and weighted to represent all sectors of the UK economy.

In East Surrey UA, the jobs density has remained stable, from 0.70 in 2009 to 0.75 in 2023. This latest figure is similar to the proportion in Surrey (0.78) and similar to the proportion in South East (0.77).

The BRES definition of an employee is anyone working on the BRES reference date who is aged 16 years or over that the contributor directly pays from its payroll(s), in return for carrying out a full-time or part-time job or being on a training scheme.

Jobs Density

Communities and Environment

Community Needs Index (CNI) Ranks

The chart below shows the overall rank on the 2023 Community Needs Index (CNI), as well as a rank on each of the three CNI domains for East Surrey UA, Surrey and South East. The CNI was developed to identify areas experiencing poor community and civic infrastructure, relative isolation and low levels of participation in community life. The index was created by combining a series of 28 indicators, conceptualised under three domains: Civic Assets, Connectedness and Active and Engaged Community. A lower rank indicates that an area has relatively higher levels of need.

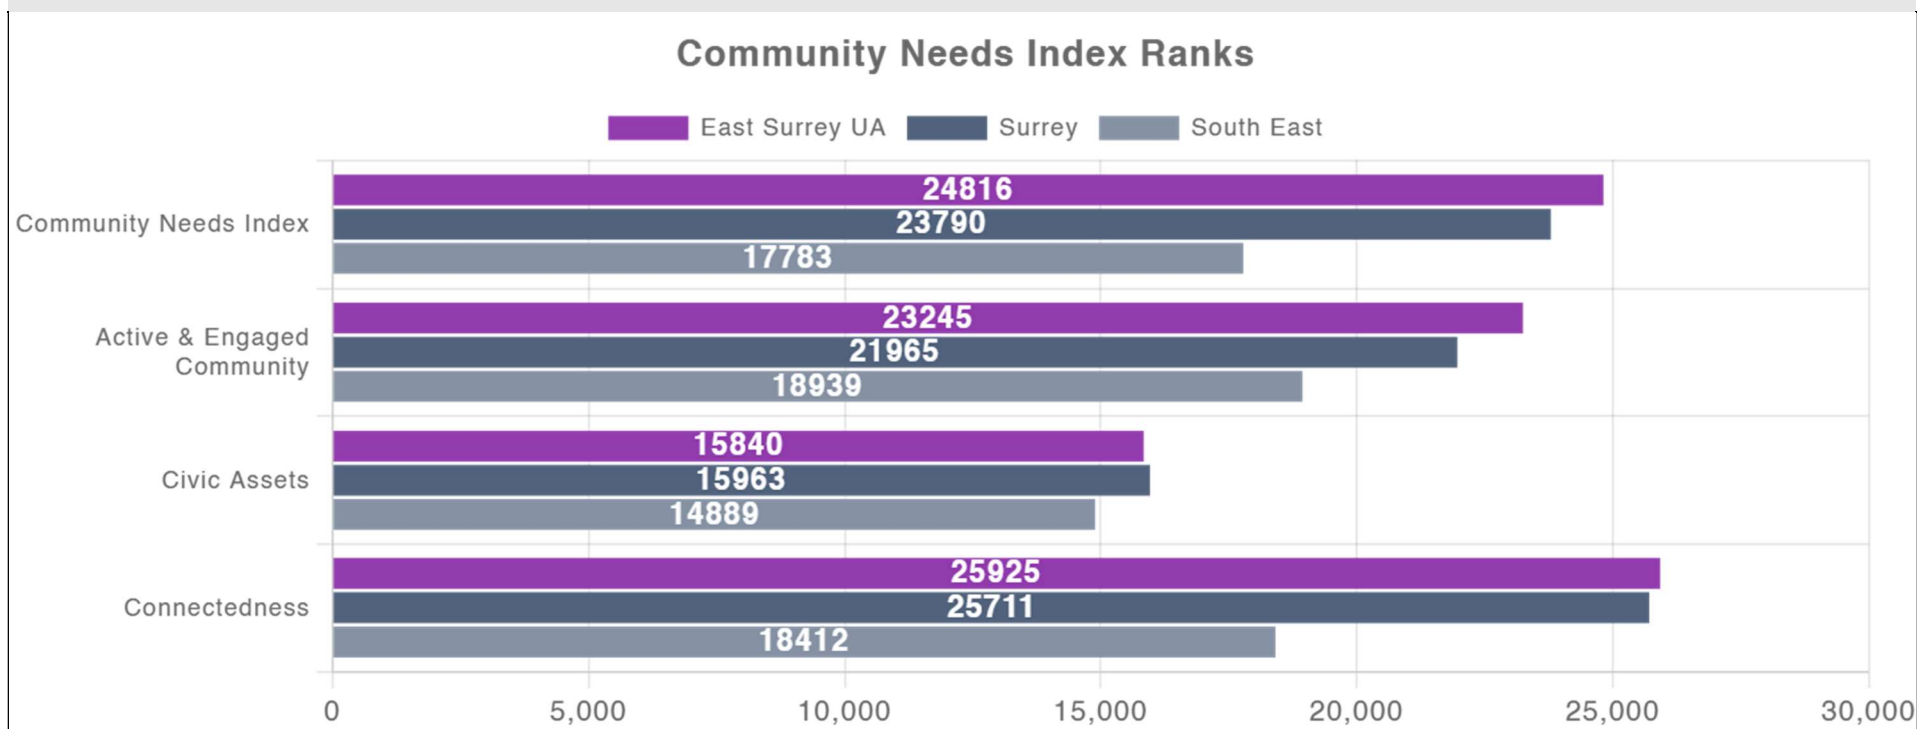

- Civic Assets: measures the presence of key community, civic, educational and cultural assets in a close proximity of the area. These include pubs, libraries, green space, community centres, swimming pools – facilities that provide things to do often, at no or little cost, which are important to how positive a community feels about its area.
- Connectedness: measures the connectivity to key services, digital infrastructure, isolation and strength of the local jobs market. It looks at whether residents have access to key services, such as health services, within a reasonable travel distance. It considers how good public transport and digital infrastructure are and how strong the local job market is.
- Active and Engaged Community: measures the levels of third sector civic and community activity and barriers to participation and engagement. It shows whether charities are active in the area, and whether people appear to be engaged in the broader civic life of their community.
-

East Surrey UA has an overall CNI rank of 24,816. This means that East Surrey UA has lower levels of community need than Surrey (23,790) and lower levels of community need than South East (17,783).

Indices of Deprivation (IoD) Air Quality

Oxford Consultants for Social Inclusion Ltd. All rights reserved.

Copyright © 2025. Not to be used for commercial purposes.

The boxes below show modelled estimates of air quality based on the concentration of four pollutants: nitrogen dioxide, benzene, sulphur dioxide and particulates. Values for each of the pollutants were based on 2016 air quality data published by the UK Air Information Resource for 1km grid squares. A higher concentration indicates that an area is experiencing high levels of deprivation.

East Surrey UA's estimated concentration of nitrogen dioxide is 0.421. This is similar to the concentration in Surrey (0.431) and similar to the concentration in South East (0.397).

Nitrogen Dioxide	Benzene	Sulphur Dioxide	Particulates
0.421	0.101	0.025	0.422
(Surrey = 0.431, South East = 0.397)	(Surrey = 0.105, South East = 0.108)	(Surrey = 0.028, South East = 0.030)	(Surrey = 0.419, South East = 0.411)

Access and Transport

Car Ownership

The table below shows the number and proportion of households according to their ownership of a car or van. This is based on responses to the car ownership question in the 2021 Census which asks information on the number of cars or vans owned, or are available for use, by one or more members of a household. This includes company cars and vans available for private use and is based on details for private households only. Cars or vans used by residents of communal establishments are not counted.

In East Surrey UA, 12.31% of households have no access to a car or van. This is similar to the proportion without access to a car or van in Surrey (12.71%) and less than the proportion without access to a car or van in South East (16.86%).

Car or Van Ownership						
Indicator	East Surrey UA		Surrey		South East	
	Count	Rate	Count	Rate	Count	Rate
No Car	27,016	12.31%	61,260	12.71%	642,098	16.86%
1 Car	92,025	41.92%	194,819	40.43%	1,553,917	40.81%
2 Cars	71,102	32.39%	159,951	33.20%	1,163,276	30.55%
3+ Cars	29,377	13.38%	65,788	13.65%	448,675	11.78%
